

C[®] Canyon
PCR Product Range

Three trigger sprayers are shown in the background, slightly out of focus. From left to right, they are blue, green, and red. Each has a white trigger and a white cap. The blue sprayer is on the left, the green one is in the center, and the red one is on the right.

Tested and Compatible

The sprayers in our PCR Product Range, use 3 PCR components, which have been fully tested to ensure the same great performance and compatibility Canyon guarantees and delivers with all its products.

Sustainability Sourced PCR Material

We have secured material supply from locally sourced suppliers, in an attempt to reduce the CO2 emissions from transport vehicles.

Fully Recyclable Sprayers

Our PCR Product Range includes the T95 trigger sprayer, an all plastic trigger sprayer, making it the perfect product for recycling.

In line with government guidelines

Our sprayers and manufacturing process are fully compliant with current government legislation. We only offer PCR sprayers manufactured with a minimum of 30% PCR material.

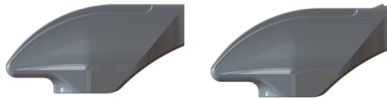

Durable Materials

With the same strength and durability, the PCR Product Range guarantees performance up to 10,000 strokes, making it the perfect sprayer for reusability.
